What is Best Start?

Best Start is one component of a NSW Government initiative to increase literacy and numeracy learning support in the early years of schooling.

Best start:

- teachers gather and analyse information as evidence about what children know, can do and understand in Literacy and Numeracy.
- provides important information that supports teachers in meeting children's individual learning needs
- provides families with feedback on what their child can do and how they can best support their child's learning
- assists teachers to monitor children's learning. This is ongoing throughout the child's schooling years.

Best Start Appointments

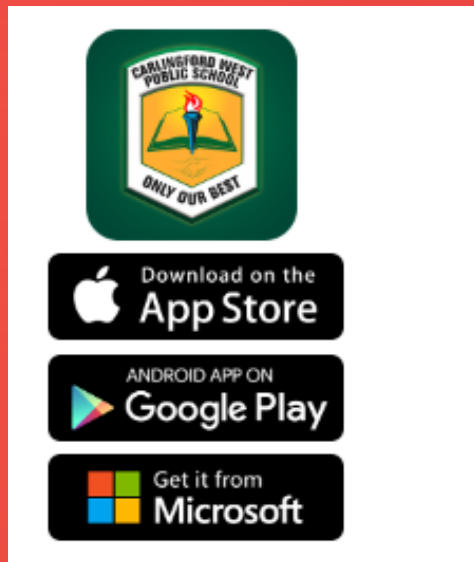

You will be given your individual appointment time next week during orientation and it will also be emailed to you.

Dates and a half an hour time will be between 4th to the 7th of February 2025.

(This is why it is important that we have correct email addresses)
