# Best Start transition to school

A positive start for all children

# Continuity of learning and transitions

‘Building on children’s prior and current experiences helps them to feel secure and confident and connected to familiar people, places, events and understandings.’

*The Early Years Learning Framework for Australia*

Children start school with having many and varied experiences that have developed and shaped their language, literacy and numeracy knowledge from within their family and community.

# Best Start

Is it a test?

No

*Best Start* is not a test. It is the classroom teacher working with each child on literacy and numeracy tasks to gain a starting point for planning effective teaching and learning activities. The children do not pass or fail. There is no preparation required.

# What is Best Start?

*Best Start* is one component of a NSW Government initiative to increase literacy and numeracy learning support in the early years of schooling.

## *Best start:*

- teachers gather and analyse information as evidence about what children know, can do and understand in Literacy and Numeracy.
- provides important information that supports teachers in meeting children's individual learning needs
- provides families with feedback on what their child can do and how they can best support their child's learning
- assists teachers to monitor children's learning. This is ongoing through out the child's schooling years.
